

 This project has received funding from the European Union's Horizon 2020 research and innovation programme under grant agreement No 862681.

Paper Province and Tretorget invite you to a webinar where you will experience some of the latest digital solutions with potential of revolutionising the forest industry.

As partners in the EU-financed Rosewood project we work to create open innovation, new digital solutions, and increased knowledge in the forest industry. This webinar aims to share best practices, field demonstrations and new technical solutions with potential to make the forest sector more efficient, profitable, collaborative, and sustainable.

We have invited key players from Sweden and Norway to share their take on digital solutions fit for the future.

WHEN: 21 May 09.30 – 11.30 (GMT+2)

WHERE: Online via Zoom. Use this link to join the event: [Zoom link >](#)
